Cards names in "Wallet" remain in Ukrainian after language switch to English

📎 **Attach**   🗹 **Create subtask**   🔗 **Link issue**   ⌄   •••

Description

Preconditions:

1. Install the Privat24 mobile application on a mobile device
2. Connect the device to the Internet.
3. Launch the application.
4. Authorize successfully into the system.

Steps to reproduce:

1. In the upper left corner tap the user icon.
2. In the sidebar choose "Налаштування" (Settings), and tap "Мова" (Language).
3. In the pop-up menu choose "English".

Expected result: The main page "Wallet" should open. The language of the app switched to English.

Actual result: The names of the user's cards are still in Ukrainian.
